Where the world's brightest minds come to grow

At the Johns Hopkins Center for Talented Youth (CTY), we specialize in recognizing and developing the academic talents of young people.

Joining CTY means gaining access to challenging and engaging summer and online courses and academic counseling. It means connecting with expert instructors, fellow students, and families from around the world who share your interests. It means learning to take risks, make mistakes, think creatively, and grow confidently.

We're hosting several free online information sessions for students in grades 2-12 and their families. This is a chance to learn about qualifying for CTY's programs, ask questions, and connect with other families of bright students. We hope to see you there!

CTY VIRTUAL INFORMATION SESSIONS

CTY will be hosting several virtual information sessions per month this summer and in the 2021-22 school year, and you are invited to attend.

Click here to view a schedule and register for a session.
